Orlando, FL 32826

October 18, 2018

To Whom It May Concern:

I am pleased to write a letter of recommendation for Elizabeth Maspoch, an applicant for your institution. In November of 2017, I became acquainted with Elizabeth when I began to work with the UCF Modeling and Simulation graduate program. At that time, she had been working with my predecessor at the Modeling and Simulation program for the past year as a web development assistant. Elizabeth is mature, confident, hard-working, and diligent. Investing in Elizabeth Maspoch is a wise decision.

During our time together, Elizabeth has proven herself to be invaluable to my success. During my time as interim graduate coordinator, she shared insight on the program's culture and protocol, while taking ownership of some regular tasks. I was reassured to know I could trust a student worker at the level I do a staff colleague. After I stepped into the role permanently, I entrusted Elizabeth with even more responsibility, including renovating our website, preparing our students' final thesis and dissertation documents, and moderating our general inquiry email account. I trust Elizabeth's feedback on executing tasks as well as her willingness to take on anything delegated to her.

Elizabeth is an extremely industrious individual. She has an admirable work ethic, knowing she has to earn everything that she wants to achieve. Even during downtime, Elizabeth is always working—either on assignments, studying, or other activities to enhance and practice her skills. She is one of those students who studies to know and understand the material, not just for the exam or the grade, but for her personal and professional development. This is an impressive trait. She perseveres in her work to be the best she can be, to provide better for herself and for those who depend on her.

In my nearly twenty years of higher education experience, I have worked with thousands of students. Elizabeth Maspoch is one of those individuals that I love to see. Her determination and attitude has anyone who meets her cheering for her success. This is the kind of person that we want to support and encourage to keep working toward success, in any capacity we can. I hope my letter will serve her for that purpose.

Please feel free to contact me if you have any questions, concerns, or require further information.

Thank you,

Kirsten E. Seitz, Coordinator
Modeling and Simulation Graduate Program
University of Central Florida
Office: 407-882-1407

RE applicant: **Elizabeth Maspoch**

3/1/2016

To Whom it may concern:

      It is with great pleasure that I recommend Elizabeth Maspoch for your institution. Elizabeth is an undergraduate student at the University of Central Florida, where she is majoring in Computer Science and has a minor in Leadership Studies, with an expected graduation date of May 2019. I have known Elizabeth since August 2015 – she has been working with me as my Research Assistant performing a variety of research-related tasks and projects at approximately 15 hours per week, therefore I am very familiar with this student's intellectual capabilities and work ethic.

      Elizabeth has proven herself to be an excellent Research Assistant with very strong academic and intellectual capabilities. Elizabeth is bright and quick-thinking, and proficiently applies her computer science skills (her major area at UCF) to complete a variety of projects with efficiency and ease. Even though I am an anthropologist and my area of research is in social sciences, Elizabeth adapted extremely well to working with me by developing cross-disciplinary ways of thinking and approaching her tasks. This included strengths in thinking about an issue from different disciplinary paradigms and methods, including scientific, humanistic, and writing perspectives.

      Moreover, she designed for me a professional website that focuses of highlighting research and publication work. Elizabeth both developed the website and also offered many important ideas of how to structure and display the content. In this sense, Elizabeth demonstrated leadership and initiative in offering ways in which a project could be optimized. On many occasions I took Elizabeth's ideas and made changes to my approach based on her insightful observations and suggestions. Her strong intellectual and academic capabilities also stood out as she showed she is able to think critically, analyze academic content from a discipline outside of her own major, and incorporate what she is learning in computer science and leadership minor into her work. Additionally, she is well organized and able to prioritize her work, which is also a vital academic skill that serves her well as she is advancing through the challenging program in computer science and leadership studies.

      I believe that Elizabeth is an excellent and deserving candidate for your program. I have no doubt that if given the opportunity Elizabeth will excel in her educational endeavors. Please accept this letter as a very strong recommendation in support of this talented, capable, and hard working student. I would be happy to provide further information about this student.
Sincerely,

Joanna Mishtal, Ph.D.
Associate Professor
Department of Anthropology

The Florida Senate

State Senator René García

38th District

Please reply to:

District Office:

1490 West 68 Street

Phone# (305) 364-3100

August 27, 2013

To Whom It May Concern:

It is a pleasure to write this reference letter on behalf of Elizabeth Maspoch whom I have known for two years. She started to volunteer at my district office when she was in high school. Elizabeth has acute analytical skills and her approach to the tasks she is assigned too are very keen. Her communication skills are noteworthy and Elizabeth's reliability was impeccable. I know she will become an asset to any institution.

Please consider this letter as a strong recommendation for Elizabeth Maspoch. If you have any further questions regarding Elizabeth's character or abilities please contact my office at (305) 364-3100; either I or my legislative aides, will be more than happy to answer your questions. Thank you very much for your consideration.

Sincerely,

René García
State Senator
